### W I R E D

We re wired before were born  
Not knowing next perfect storm  
Not feeling how is to be alone  
Not seeing after you have gone  
My lovely one is so hard to find  
The one who ever walks behind  
I ve got you always on my mind  
My beautiful one love and kind  
Wired like the time always stop  
Wired in your morning eye drop  
I love you every day a lot  
I love you all night no stop  
We re wired all our young age  
We re always kept in cage  
To learn a lot and go college  
To dream a time type edge  
We re wired all our bright life  
To search eachother lovely wife  
To cut the times with gold knife  
And share pieces on your side  
Wired were with our children  
To rise them and forgotten  
To live our precious moments  
To love with no comments  
Wired we were earning money  
To paint our house with honey  
To colour our room with white  
Leaving the colours for the sky  
Wired we re now you see  
Why you are not with me  
You re all I want my only love  
Under coloured stars above  
You re the one I ever love  
I need your gently touch  
I need wet kisses much  
Wired is you in your mind  
Than beeing hot and kind  
A man like me you never find  
You love me much and blind  
Wired your life in Universe  
With thin wires tied on me  
So tight nothing you can see  
I m your love I m your sense  
Wired in strange present times

We must leave good our lives  
Stop this feeling of being tired  
Stop this feeling of being wired
